Homebrew Used To Make Gravey?

Quite a chuckle was created in Circuit Court this week, when Bill Fleming, accused of making homebrew and upon being questioned about what he did with the "brew", Bill declared, "he used it to make gravey with." The Judge and Commonwealth's Attorney evidently did not believe the "gravey story", neither did the jury, for they returned with a verdict of "guilty".

Elihu Mullins of Jenkins was given a two year sentence in state prison for carrying a concealed deadly weapon. This was the first conviction in Letcher County under the new state law, making it a felony to carry a concealed deadly weapon.

Old Barn Being Torn Down

One of the oldest buildings, an old land mark in Letcher County is being torn down to make room for modern buildings. The old barn of the late Jim Frazier located near the Whitesburg jail. This barn, according to reliable sources was erected more than 63 years ago and was formerly the home of Steve Blair and Mrs. Blair. Mrs. Blair who later became Mrs. Jim Frazier. The barn was formerly located in the upper end of town. According to Mr. Steve Frazier, this barn at one time housed all notable people's horses and teams traveling through this section—for many years, the people staying at Mr. Jim Frazier's home—the only place in the town during the late 80's that attempted to keep the traveling public. Among the notable people whose horses were kept here was John Fox Jr., who traveled through this section gathering data for his two books, "The Trail of the Lonesome Pine" and "Little Shepherd of Kingdom Come".

The barn, although more than 65 years old is in good condition, the roof being of galvanized tin, was put on when the barn was built and it is said was in good condition when taken off. Mr. Silas Fields purchased the barn at a sale held in Whitesburg a few months ago.

Meade Had Ambition For Congress Twenty Years Ago

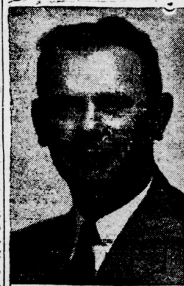

An ambition born 20 years ago has made W. Howes Meade the Republican nominee for Congress from the Seventh Congressional District.

The 34-year-old lawyer and World War II veteran of Paintsville told friends and family, when he was just a "teen age lad, that some day he would "run for Congress." He announced his candidacy in September, 1945, while serving with the Navy in Central America.

The early announcement gave Meade time in which to conduct a letter-writing campaign. Following a mailing list supplied by Mrs. Meade, who was at their home in Paintsville with their daughter, Mary Lloyd, now 8, Meade wrote more than 20 long-hand letters a night until he was discharged in January, 1946.

Back in civilian clothes, Meade made campaigning almost his only business. A Jeep, bought from the army's surplus stock, carried him over the mountain roads in every county in the district. He received the help of war veterans who caught the fever of his campaign. He was nominated by a comfortable majority from a field of five candidates.

Although a neophyte in politics, Meade has gained the reputation as a hard campaigner. He seemingly never tires of what he called "the pleasure of meeting people and talking politics." He likes to speak, and his strong voice—trained in the work of being a part-time auctioneer—makes

the use of an amplifier unnecessary.

"I let the other fellows use the loud speaker and I just speak naturally," Meade said. In his present campaign, the ex-sailor plans to make more than 100 speeches. He started his schedule the first week in October.

In the meantime, there will be "folding parties" in his home, where friends and neighbors will meet with Mrs. Meade to prepare campaign literature for distribution. The "folding parties" have become almost a community event.

Instead of one Jeep, Meade will have a caravan of Jeeps in the last leg of the campaign. Former service men who also are Jeep owners have pledged the use of their vehicles in the effort to elect Meade.

Announcement

We are authorized to announce Willie Caudill of Roxana, Ky., as a candidate for member of Letcher County Board of Education Division No. 5 in the November Election, 1946.

JIM WHITAKER REPORTED ILL IN HOSPITAL

Mr. Jim Whitaker, Board of Education member from Linefork is reported a surgical patient in the Burleson Hospital, Inc., 531 Greenwood Ave., East Grand Rapids, Mich. His many friends here will regret to hear of his illness.

Mr. and Mrs. James Marlowe and sons are spending this week in Lexington, as guests of his parents, Mr. and Mrs. M. K. Marlowe.

Dr. T. R. Collier and Dr. B. C. Bach are attending a Medical meeting in Norfolk, Va., returning on Wednesday.

Meade also has had the assistance of former schoolmates who promised him 10 years ago that when he became a candidate, they would come to the Seventh District to "stump" for him. The pledges were made while he was a member of the University of Louisville Law School.

A native of Johnson County, Meade is a son of the late Dr. Lloyd G. Meade, dentist, who at one time was a member of the United Mine Workers of America, and Mrs. Beulah Howse Meade.

After attending the Paintsville school, he entered the Paintsville Military Institute in Lyndon, and was graduated in 1929. It was 10 years later before he finished the University of Louisville Law School.

After leaving KMI, Meade returned to Paintsville and became a bank teller. He turned to farming and livestock trading also. Through his efforts, the Paintsville Livestock Market was organized in 1933 and he became its auctioneer. He returned to school to obtain a law degree in 1939.

In 1943, Meade entered the Navy. His law office was closed when his partner, Fred Meade, a distant relative, retired. He resumed his law practice after being discharged.

Meade's war service carried him into the Pacific and to Central and South America. He has a sister, Mrs. J. E. Radcliff, who lives in Paintsville. (Pol. Ad)

Father and Son Killed In Slate Fall

On October 15th about 10 o'clock, the lives of Thomas William Easterling, 39 and his son, Billy 17, were snuffed out when they were caught in a slate fall while at their machines working in the Elkhorn Jellico Coal Co. at Marlow, Calif. She has one brother and one sister living, Ned Polly of Linefork, and Mrs. Eli Ison, Sr., of Kingdomcome. She leaves 20 grand-children and 27 grand-grandchildren.

Her husband preceded her in death 40 years ago leaving her with a family of orphan children, all of whom she managed to keep together as a unit and rear to manhood and womanhood. Perhaps no widow woman in Letcher County had a harder struggle in bringing up her young. Certainly few, if any, did a better job.

She never joined any church, but was a great believer in the principals as set forth by Jesus Christ, and counseled her children and neighbors accordingly. Friends strangers and neighbors all called at her door alike, received a friendly welcome. It is doubtful if the table of any other person in Letcher County has fed more people than the table of "Aunt Dicy Day."

When on her death bed she called her children who were present to her bedside and asked them to all be good. She said she had seen her father and mother, a sister, her husband and other loved ones who had gone on before her and that she wanted to go on and be with them. Her family is satisfied and happy with her parting statements.

She was laid to rest in the family cemetery at Day, Ky., with Elders Felix G. Frazier and Caleb Creech, Riley Pouts and

Goering Swallows Poison Before Time To Hang

Nuernberg, Oct. 16 — Hermann Goering did not lead the last parade today—the one to the gallows. He lay dead in his cell by his own hand and Joachim von Ribbentrop took his place at the head of the march into eternity.

Goering swallowed cyanide of potassium just before his death sentence was to be read to him, and only two hours before the traps of the scaffolds began banging open to drop 10 other Nazi ringleaders to their deaths to pay for war crimes.

Ribbentrop was foreign minister in the ill-starred regime of Adolph Hitler.

All of the 10 made brief statements on the "Long Live Germany" pattern so familiar during their trial of more than 10 months. Most of the executed men endeavored to show their bravery. Most of them were bitterly defiant and some grimly resigned, while others begged the Almighty for mercy.

DICY POLLY DAY

Another good mother has gone to rest. On Tuesday afternoon, October 8, 1946, Mrs. Dicy Polly Day passed to her reward at her home at Day, Kentucky. Mrs. Day, who was born September 20th, 1862, at Linefork, Ky., the daughter of A. C. (Clabe) Polly and Margaret (Peggy) Cornett Polly, began 84 years and 18 days of age when God called her to his home.

She was married to R. C. (Major) Day, October 1, 1891. She was the mother of nine children, all of whom are living. They are Mrs. Tom Day (Canna), Ran C. Day, Edward F. (Ned) Day, Marcellis M. Day, and Mrs. Susan Day, all of Day, Ky., Anthony C. Day, of Whitesburg, Eli I. Day, of New York City, Robert F. Day, of Leavenworth, Washington, and Mrs. Mack Adams, of Jenkins, Ky., and the following living step-children: Clark S. Day, of Whitesburg, and Enoch B. Day, of Denny, Calif. She has one brother and one sister living, Ned Polly of Linefork, and Mrs. Eli Ison, Sr., of Kingdomcome.

She leaves 20 grand-children and 27 grand-grandchildren. Her husband preceded her in death 40 years ago leaving her with a family of orphan children, all of whom she managed to keep together as a unit and rear to manhood and womanhood. Cardinals Win 7th Game of Series

St. Louis, Oct. 16.—They added another World Series pennant to the St. Louis Cardinals' baseball flagpole today and this one, the sixth that has come to the Redbirds, was the best of them all.

For it came the hard way in one of the most dramatic seven-game series in major league history. The boys who weren't supposed to win did, and the fellows who figured to take the championship were on the outside looking in.

Those fellows were the Boston Red Sox and they lost their chance for baseball glory because one of them didn't have it when the chips were down. They couldn't have won it if it hadn't been for the Boox shortstop, Johnny Pesky. Pesky's mistake was responsible for the Cardinals' winning the seventh and deciding game yesterday, 4 to 1. A key figure in Boston's drive to the pennant, he became the goat in their loss of the series.

"Behind the Scenes in American Business"

—by Reynolds Knight—

NEW YORK, Oct. 14.—There seems to be one simple answer to the recent drop in the value of the family units in the country have an income of \$2,000 or less a year. These people, over the years, have come to depend on a smooth running mass production machine for the relatively high standard of living they enjoyed, higher than that of any other nation. During the past year they have seen the steady flow of raw materials to manufacturing plants, hence to retail outlets and to the ultimate consumer interrupted time and again by strikes and government regulation to the point where the whole economy has been dislocated. This has raised the cost of producing goods to such an extent that a great many people no longer are reluctant to buy; they just cannot afford to. The answer seems as simple as the cause: prices must eventually return to a level where more people can afford more things. That will come about as sales contract. Prosperity will resume when the individual worker improves the quality of his output, when the mass production machine once more is running smoothly for the benefit of the whole people.

HANDSOME FREIGHT CAR—Right out of the band-box is the new aluminum refrigerator car, which Illinois Central Railroad is putting into experimental service this month. This ice box on wheels will vie with the latest home refrigerators for looks and care in construction. It has a gleaming exterior, fiber-glass-insulated and will weigh about 25 per cent less than the regular 14,000 pound refrigerator car. It has permanent installations of fans for forced-air circulation, electric lights, Duryea cushion type under-frame, longer springs and built-in stabilizers in the truck, bolsters. Synthetic rubber seals the ice-loading hatches. The new car represents the combined planning of United Fresh Fruit

and Vegetable Association, the Car Construction Committee of the Association of American Railroads and Aluminum Company of America. The railroad plans to run a test lead from New Orleans to Chicago, possibly with bananas. The southern rail will carry ordinary merchandise, using the full-length capacity of the car which has collapsible bulkheads. Later a test run will be made under extreme deep-freeze conditions. All of which indicates that the railroads are dressing up equipment other than passenger cars.

THINGS TO COME—A shop full of tools in one kit for the home handyman. The kit, which has an electric attachment, can be used for wood working, tool making or any other metal, glass or plastic hobby. . . Secretary's delight: a mail opener. It is operated electrically, the automatic device feeding, stacking and opening the mail. . . For fast figuring, a new IBM machine which will multiply six digit numbers by a similar number and punch 12 digit answers on cards at the rate of 100 a minute. . . A new dinette set which includes two upholstered benches and a built-in electric outlet. . . A liquid "soapsless soap" which will be sold in cake form because most people prefer a bar to liquid or powder.

MAN OF THE YEAR—In recognition of his distinguished record this year in advancing the principles of Americanism advocated by the American Legion, Ernest R. Christopher, U. S. postmaster at Bartlesville, Okla., has been chosen "Man of the Year" and winner of the \$1,000 Lewis S. Rosenstiel Award for community service. Railed as an "ideal American," Christopher was selected for the award, presented annually by Rosenstiel in behalf of the Dorothy H. and Lewis Rosenstiel Foundation, over ranking candidates from other state departments of the Legion. A 49-year-old veteran of World War I and graduate of the University of Oklahoma, he has been a member of the Legion 26 years, serving as chairman of the Americanism Commission of the Department of Oklahoma and in other official capacities. Besides his Legion activities, Christopher has been active in Chamber of Commerce, Kiwanis Club and Parent Teachers association work and other civic interests in his own community. In tribute to Christopher's activities, Elmer W. Sherwood, director of the National Americanism Commission, characterized as "outstanding" the Oklahoma's record of civic service.

BITS O' BUSINESS—The meat shortage forecasts a shortage in soap. Soap is 50 to 70 per cent tallow, which is a by-product of cattle. So no meat means no soap. However, manufacturers have greatly improved synthetic detergents, which is a fancy name for a highly effective cleansing agent made with a coconut oil agent. . . It is a big year for the farmers. The cotton crop will bring an estimated \$2 billion, and wheat price has advanced another 15 cents a bushel in the past month. . . The Bureau of Agricultural Economics predicts that the national income will rise to \$175 billion in 1947, which would be \$10 billion higher than the estimate for 1946. That estimate, however, does not take into consideration a possible slump in business which the stock market seems to be indicating. Even now, many industrial expansion plans are being laid aside because of soaring costs and strikes. Bakers are finding it more difficult to get lard and shortening. Lard stocks are about half what they were a year ago and are not likely to increase until hog slaughter rises.

DRY MEAT

This story was recently told to us by a leading citizen: Two men, one a Republican and the other a Democrat, changed to be walking through a field when suddenly a large Rabbit jumped in front of them. Said the Democrat: "Under Hoover I would have taken after that Rabbit and run it down," whereupon the Republican replied: "I would take after it now if I only had the grease to cook it in."

Mr. and Mrs. Harold Minns attended the wedding, Sunday of Mr. Minns brother, Mr. Gordon L. Minns and Miss Loraine Whitmore of Williamson, W. Va.

Card of Thanks

The family of Mrs. Dicy Day takes this means of expressing gratitude to our neighbors, relatives and other friends who so kindly and tenderly helped us bear our burden during the illness and death of our dear mother. The Bible tells us to love thy neighbor as thyself. Those living in our community certainly manifested that spirit while our mother was ill and after the Angels had called her home. It makes us feel happy to realize we live in a locality where kindness and helpfulness seems to be the chief aim.

We are grateful to Dr. Carl Pigman, Jr. for his efforts to restore mother's health; to the neighbors who come to see and visit her. We shall always remember the men and women who came and sat up through the lonely hours of night to give her medicine and to comfort her in other ways. We shall remember those who out of their hearts prepared and brought food to help feed the people. We shall not forget Rev. F. G. Fields who sat by her bed side all through the night before she passed away and then returned and helped preach her funeral. We are grateful to the men who left their work and came with their tools and prepared the final resting place for her body.

Our hearts have been touched beyond description by the beautiful flowers that were sent for mother's funeral. We are thankful to every relative, friend and organization who showed respect for mother in this way.

We sincerely appreciate the kind, sympathetic and efficient efforts of Mr. Dick Evans and other members of the staff of the Evans Funeral Home for all they did on behalf of mother and the family.

We thank Rev. F. G. Fields, Rev. Tommy Collier, Rev. Palmer Spangler, Rev. Silas Frazier, Rev. Riley Fouts, Rev. Lawrence Sumpter and Rev. Caleb Creech for their kind words of comfort and advice and their admonishment to all of us to live the kind of lives that will enable us to meet mother in Heaven.

—THE FAMILY.

TO PAY BY CHECK

Every time you pay by check you increase the value of your name. . . Yes, it's as simple as that. . . Because every transaction that you complete by check is added proof that your signature is dependable. . . And the more times you repeat the process, the more your name is respected. . . Young people, anxious to prepare themselves for positions of trust in business and social life, often use checking accounts to help them establish responsibility for their names. . . and meeting your financial responsibilities by check is a good business fundamental, for good checks denote a good reputation. . . And good reputations attract good opportunities.

WHAT EVERY BUSINESSMAN SHOULD KNOW ABOUT HIS PARTNER—THE RAILROADS

**What is the lightest
part of the load?**

As in practically every other line of business, the cost of running a railroad has been steadily rising during recent years.

Wages, by far the largest single item in railroad costs, now average 53% more than they were just before the war. Prices of materials, supplies and fuel—the second largest item—are up 47%.

But while operating costs have been rising, the cost of the capital it takes to build and improve

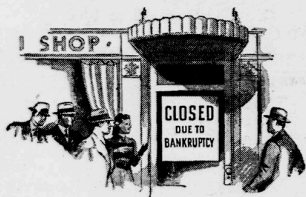

railroads has been going down. Railroad managements have been alert to opportunities to reduce indebtedness, or refund it at lower interest rates. As a result, fixed charges on the capital invested are less today than they were in 1912—although investment in railroad plant has almost doubled since then. The big part of the cost of running a railroad is the operating cost. The cost of the capital is the lightest part of the load.

"I would like to tell you why Increased Rates on Telephones are Necessary"

Today, more than ever before, Kentucky needs adequate, dependable telephone service, and it is our purpose to provide it. We are now furnishing more service to Kentuckians than at any other time in our history.

Both local and long distance calls have reached an all time high for this state and more and more people want telephones. Since the first of the year, we have installed 40,000 new telephones. But we still have 23,000 orders on hand. Our study of the state's growth indicates that the demand for more service from present as well as new customers will continue to increase.

In order to keep up, we must enlarge our facilities and hire more people, regardless of the fact that construction costs and wages have risen tremendously.

The cost of erecting buildings is up 75 to 100 per cent. The overall cost of providing telephone facilities is up 45 to 60 per cent, and telephone materials 15 to 25 per cent.

Total payroll costs have increased 202 per cent since 1939. Wage rates in Kentucky have been raised during the past 18 months by \$2,162,573 on an annual basis. This was in keeping with national policies and trends and to assure competent personnel to provide adequate service. We now have 4,000 Southern Bell people in Kentucky. Wages account for about two-thirds of our operating costs.

Although the cost of everything we do to provide service keeps going up, your telephone rates generally are lower today than 15 or more years ago. Because of this, the amount of money we are paying out is increasing faster than the amount we are taking in, despite a record volume of business. Since 1939, the costs of providing service in Kentucky have climbed 118 per cent, while revenues have increased only 88 per cent.

The rapid advance of costs in comparison with revenues has caused our rate of earnings to go down. In 1939, the

Company was earning 4.40 per cent on the amount of money invested in the state. Today our earning rate is only 1.82 per cent. This rate reflects the latest wage increases and does not include any possible tax refund that may be available this year only on 1944 federal income taxes. Southern Bell's earnings are today the lowest in history.

Nevertheless, the Company is going ahead with a huge expansion program. We are preparing to spend about \$35,000,000 in the next five years on construction work to improve and expand telephone service in Kentucky. We must proceed with this construction work, despite high costs, in order to meet demands for service.

We need improved earnings if we are to meet the increased costs of providing service and if we are to obtain, on reasonable terms, the capital funds necessary to improve and expand our service.

That is the reason we have asked authority to raise rates for local service and to charge 5 cents more on most long distance calls within the state.

Current costs indicate a need for greater increases in rates than we are asking. But we hope our operating experience under the new rates will prove them sufficient. The increased income under the new rates would amount to only 11 per cent of our total Kentucky revenues. In face of the continuously rising costs of providing service, this is moderate.

Kentucky is now in a period of its greatest growth and expansion, a growth that will bring the state more prosperity than it has ever known. Good and effective telephone service is essential to this progress and the Telephone Company must be in a position to supply it. We believe, therefore, that our request for increased rates is sound and in the public interest.

NOTICE

Through encouragement from the voters in District No. 5, Letcher County, I take this means of letting the people know that I am a candidate for Member of the County Board of Education.

I think the people know my record well enough to rest assured that I'll strive to carry out the best educational program obtainable. A man's actions speak louder than words in the educational field, and my past record is open to inspection by anyone. I have been a loyal supporter of all educational advancements within our county, and have worked to educate all of my children. If elected, it is not my desire to discriminate against anyone, and I will co-operate with the County Board of Education for the betterment of our school system.

It has been rumored that I am running in this clique or that faction. I want to make it clear that I am making a clean race for the office and will continue to do this at all times.

Dame Rumor has it that I will help to hire this person or that one for County Superintendent of Schools. It is my desire to help hire the best qualified Superintendent obtainable. I would like to tell in this announcement whom I favor for Superintendent, but the law doesn't permit. I can say this much that I favor a veteran of World War II, who is well qualified to be County Superintendent of Schools.

Your vote will be appreciated.

—SILAS COX.

STATEMENT

To the People of Letcher County in District No. 1: I hereby announce my candidacy for Member of the County Board of Education in the coming November election.

I was born at Baker, Ky., now called Jackhorn, Ky., and have been a laboring man all of my life. At the present time I am a check-weighman for the United Mine Workers of Local Union No. 6848 located at Jackhorn, Ky.

All my life I have supported progressive education in Letcher County and have reared one daughter who became a teacher. In making this race there is no thought or motive other than to work for the betterment of Letcher County Schools. I believe in Letcher County and am convinced that our future destiny lies in the hands of our young people. If elected as your Board Member in District No. 1, I'll strive for better education in every way possible.

The people can rest assured that I'll help to select the best qualified person available for County Superintendent of Schools. It is my desire to select a veteran of World War II for our County School Superintendent. I believe in giving our veterans first choice if they are of good moral character and well qualified.

Your vote will be appreciated.

—LUTE HALL.
